President Smith's Puzzle-Reports From Various Sources Reach the Board-Work at Kalihi.

(From Thursday's featly.)

In a letter read at yesterday's regular meeting of the Board of Realth, department to send Captain Folger to R. A. Lyman, deputy sheriff for Ha- Honolulu to take command of the wall, writes of the encroachment of Oregon. I would like to return home water and swamp land on Front street. Mr. Reynolds suggested a canal to the is not to be so, I will have the pleasure sea. Dr. Emerson and President Smith of seeing my old comrade, Admiral thought this would divert Walakea Dewey. I have been to Quam and Mastream. President Smith wondered nila before. why the local boards at Hilo did not remedy the trouble. In about half a minute Mr. Lansing, at the instance of President Smith, was made Board of Health embassador to Hilo. He will examine the marsh nuisance, visit the hospital and look into sanitary mat-ters generally, reporting to the Board

of Figure 1. In the past fortnight the killing at the local general slaughter house has amounted to 361 beeves, 115 caives, 293 sheep, 340 hogs. There is much liver fluke and a calf and a bullock from Kaneohe were condemned for tuber-culosis. This report was from Dr

At the beginning of January Hilo hospital had ten inmates and seven at the end. The bill for care of United States soldiers amounts to \$1221, at \$1.50 per day. This barely clears the expense. The bill is in the hands of the military medical authorities here. Dr. H. W. Howard, in charge of the forcement free dispensary on King.

Dr. Alvarez made a return on exper-iments with mongoose by injection of bacilli of leprosy. Most of the mon-goose thrived under experiment.

President Smith spoke of condition of building at Kalihi station. He suggested extensive repairs to a couple of structures. The worst condition is the wear of the floors. Dr. Alvarez strenuously urged new buildings of a style that could be disinfected. This process is impracticable with the present structures. The buildings he thought had tures. The buildings, he thought, had become too old and worn for use. Agent Reynolds rather agreed with President Smith that two Kalihi buildings could be repaired. All houses will be further examined. One will be repaired without delay. There was a side discussion on scientific white wasn-ing. For health salt or a cheap distrifectant should be used instead of glue

or rice in mixing.

Dr. Grace Cole and Dr. Webster, the latter of Oakland, filed applications for permission to visit Molokal seutlement. Deferred. It is inconvenient for visitors excepting when the Board makes one of its trips.

Agent Reynolds will go to the Set-tlement next week to superintend the laying of new water pipe for the present system.

A petition is presented for a branch store at Kalawao. Mr. Reynolds was in favor of this. Several plans were suggested, but no action taken.

OREGON ORDERS

Capt. Barker Talks - Why the

Ship Remains Outside. '

The big battleship Oregon has orders to proceed to Manila, as quickly as possible. This information was given out by Captain A. S. Barker yesterday afternoon. It will be a week or tea days before the Oregon will be ready

to put to sea. "My orders from the department, re-ceived at Honolulu," said Captain Bar-blank. ker yesterday, "are to go to Manila without delay. I am waiting now for the colliers Scindia and Iris to arrive.

To clear out these tubes would entail going on the dry dock So with orders to take her to Manile where also might be needed, you can readily see it is better to anchor here in the offing with fifty fathoms of water under us than assume the slightest shade of risk."

"Will Captain Polger relieve you here?

"I have no official advices to that effect. My cruise is up and I expect to be relieved at any time now. Some private letters reached me at Callao stating that it was the intention of the after my long sea service, but if this

"I am exceedingly happy to be in Honolulu again. I love this place and its people. I am sorry that the Oregon is not anchored in the harbor so that those who wish to see the vessel could do so without much inconvenience. However, as it is, we have had the pleasure of a number of callers. We are always giad to welcome them aboard."
